

## Medcor and the Studios in 2022

### In Clinics (in addition to the usual occupational health activities)

- TB skin testing
- Workplace vaccinations (tetanus, hepatitis B)
- Shingles vaccinations
- Blood pressure checks
- Offer electrolyte replacement products/sunscreen as safety initiatives
- Emergency response bag / disaster supplies inventory
- After hours clinic coverage for productions and construction

### On the Lot Activities

- Support client AED program (monthly checks, replacing expired supplies)
- Support respiratory protection program for client including questionnaire review, ensuring medical clearance from offsite provider when needed, and quantitative fit testing
- Support hearing conservation program for client including appointment scheduling and communication and documentation of results
- Maintain OSHA logs
- Created and managed the Biohazard waste plan
- Maintain and annually update the Exposure control plan
- Sharps / biohazard waste tracking
- Stunt stand-by for productions
- Lot wide emergency response
- Nurse coverage for lot tours
- Support studio wildfire program

### Training

- Blood Borne Pathogen training
- Heat illness training
- Teach CPR/First Aid/AED courses to client staff
- For 2023, rolling out Narcan and Epi-pen training

### Health Events

- Multiple designated flu clinics for all locations
- Health fair participation
- Biometric screening / cholesterol testing

- Venipuncture blood draws as part of cancer detection screening (in conjunction with [www.grail.com](http://www.grail.com))

#### Special Events

- Two separate mobile clinic events with 24/7 physician and RN staffing – Olympics and World Cup
- Short-term coverage on location for multiple productions, including large-scale events like Latin Billboards
- Onsite occupational mobile clinic at Coachella 2022 – MD and RN staffing
- Onsite medical coverage for corporate events nationwide
- Telemedicine coverage for multiple corporate events nationwide
- Assist with COVID testing observation
- Sent physicians and nurses around the world with the Bachelor/Bachelorette crew
- Provided medical teams for other reality shows/sporting events

#### Advanced Practice

- DOT physicals (advanced practice site)
- Travel consultations and vaccinations (advanced practice site)

#### COVID

- Provide nurses for COVID Compliance Officers for US and Canadian production
- COVID vaccines offered in our clinics
- Sponsor COVID booster events
- COVID admin support – multiple RNs working remotely on West and East coasts, approx. 200-300 hrs. per month
- COVID Desk – 24/7 nurse hotline coverage for RTW, contact tracing
